GGSIPU   2020-2023

Bachelors of Computer Application

MDH International School   2008-2020

Academic Formation

PROFILE

I am a proficient Shopify Developer with expertise in WordPress, WooCommerce, Elementor, and Wix Studio, specializing in creating responsive, user-centric websites and e-commerce solutions. My skill set includes HTML, CSS, JavaScript, Bootstrap, and tools like Hostinger, enabling me to build dynamic and interactive web applications with seamless domain setup and hosting.

With experience in UX/UI Design, wireframing, prototyping, and tools like Figma and Relume Wireframer, I craft visually appealing and intuitive user experiences. I also manage product listing, inventory, payment gateway APIs, delivery partner integration, and email marketing, ensuring high-performance stores with integrated analytics and optimized conversions.

SAMYAK JAIN

WEBSITE DEVELOPER
WEB DESIGNER
UI / UX

TO WHOM IT MAY CONCERN,

Allow me to introduce myself – I am Samyak Jain, a lifelong dweller of the vibrant city of Delhi. My journey brought me to a milestone: the completion of my Bachelor's in Computer Application from the esteemed IITM Janakpuri. Why did I choose the path of BCA? Simply put, it unfurled a tapestry of possibilities, unveiling various domains and realms that align with my passions.

My expertise has matured within the realm of System Programming, encompassing languages such as Java and Python. I've also delved into the captivating realm of Web-based Development. My canvas has seen the strokes of projects involving Portfolio Web-D using the dynamic React and the awe-inspiring AI. Strengths, you ask? They comprise a positive attitude that radiates, a clockwork-like punctuality, and the art of weaving connections.

My voyage led me to master the intricacies of Fullstack Development through Unschool, in partnership with the Ministry Of Education. My web development foundation is a concrete structure, fortified by the amalgamation of experiences from diverse projects. My prowess extends to both the front-end and the back-end, where the symphony of HTML, CSS, JavaScript, and PHP resonates. To elevate my craft, I've embraced the orchestration of frameworks like React.js and Node.js. My sails are set to catch the winds of industry trends and emerging technologies, guaranteeing that my creations are contemporary, intuitive, and seamlessly adaptive.

In the grand tapestry of my journey, these threads weave a story of growth, collaboration, and creativity – a story that's uniquely mine, yet resonates with the vibrant symphony of the tech world.

SINCERELY,

Samyak Jain
